

Name	TONI-Flex-Spikes
Function	Spikes keep pigeons and other birds away from protected areas with the help of sufficiently long parallel plastic wires (3 rows). The spikes are so flexible and can even be bent around pipes.
Constituents	Polypropylene spikes and base
Material	UV-protected polypropylene, weather proof
Thickness of wires	12mm-3 mm
Height	110 mm
Distance of wires	37mm (inclined)
Number of wires	3 rows
Installation	Flex-Spikes version S1802 has a bitumen adhesive tape below, which allows easy installation without glue. Deinstallation of the flex-spikes is also easy without any residuals.

	Accessories	Article-No :
1	Primer	C-3101
2	Bitumen adhesive tape	S-17

Flex-Spikes are available in all RAL-colours with a 250m minimum order

**Liability advise**

TONI-Products are long established and proven bird control products. However, TONI products can only work effectively as part of an overall and planned programme of bird control. This includes hygiene management and the use of professionally trained personnel. Without limitation, TONI Bird Control Solutions GmbH & Co. KG will not accept liability for any consequences as a result of poor equipment maintenance, misuse, inappropriate use, lack of operative training, failure of due diligence or through lack of prior project consultation. In some countries, the use of TONI products may require an official permit for building regulation or nature conservation. TONI will not accept liability for any consequences as a result of missing approvals.
